- **Invitation Cards & Souvenirs**
- **Signages**

At Josco Printers, you can choose a printing technique that best suits your printing requirement as each type is suited to a different need. Printing processes are decided based on the order volume and the turnaround time allowed for each job. It also depends on the media or paper to be used for printing.

01 OFFSET MULTI COLOUR

- . Have medium and high volumes of printing to be done?
- . Need to have continuous print jobs to be carried out?

When your design needs printing in full colour, our sheet-fed Multicolour offset printing machinery gives you an advantage of high-end consistent, quality outputs. Ensure the images for print are no less than 300dpi for crisp and vibrant results. We feed paper thickness starting from 40 gsm butter sheets, carbon less paper to 350gsm boards in maximum feeding size up to 19 x 26 inches.

03 DIGITAL PRINTING

- . Need to print on the go?
- . Are you a small or medium-sized business that requires customized professional stationery printing?

Our Digital Printing machines will do all that and more, giving you faster deliveries with the same high-quality output. Digital Printing suits your small quantity orders and personalization.

02 OFFSET MONO COLOUR

The printed matter will be in any single colour you choose. Single colour printing for your stationery need not be dull. Many brands have realised that spot colour printing can give a bold look to paper bags and boxes and goes well on all papers, especially on natural kraft, making a more environmentally friendly paper choice.

Spot Colour printing or cut colour printing is also for economical printing of stationery used for daily purposes like log books, registers, Forms, Vouchers, Labels, Stickers, and so on.

04 SCREEN PRINTING

Have an array of special media products, like paper bags, cloth bags, and invites for personal and corporate events?

We have eco-friendly recycled paper and textured paper that will do just the job for you. Screen printing will allow you to do just that!

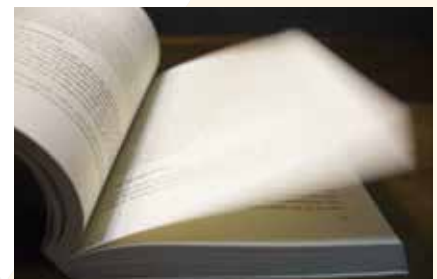

Screen Printing is done here for the printing of Wedding Cards, Invitation Cards, Special Papers, and Textured Papers.

05 BINDERY

Now that we finished with printing and you're looking for finesse?

If you're a publisher or a start-up or even a small or medium sized business and looking to finish a book, a catalogue, or a magazine and you want it to look good ... A presentation with panache.

Our book binding service includes all types of book binding namely; hardcover or case binding, soft binding for paperback books or perfect binding, sewn binding, section sewn Binding, Register Binding, Wire-o Binding, Spiral Binding, Staple Binding, Saddle-Stitch or other custom binds.

CUSTOM PRINTED PACKAGING SOLUTIONS

FOLDING CARTONS

CORRUGATED

STICKERS

LABELS

RIGID

INSERTS

BAGS

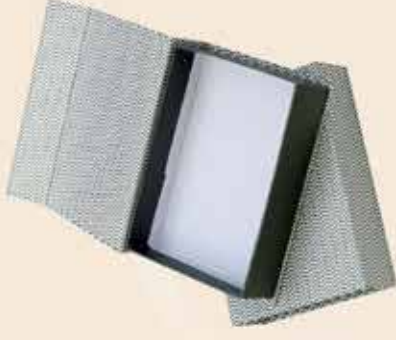

LEAFLETS

Helping business owners with the best printing service in product packaging solutions! We do printing of packaging boxes such as Rigid Boxes, Folding Carton and Corrugated Boxes along with Inserts, Labels, Stickers, Paper Bags, Product Manuals and Leaflets for packaging.

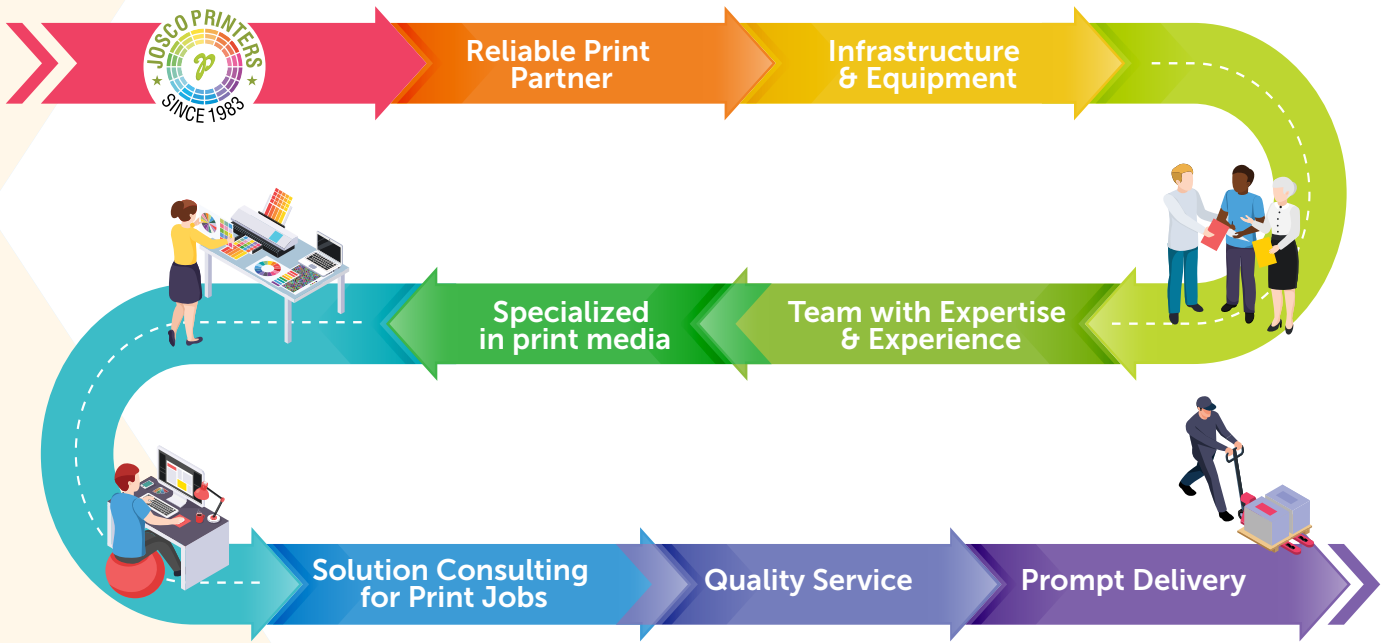

We make custom packaging boxes as per your requirement; box styles or types, size of the box, substrate or the media, the thickness of the paper, finishing works required and order quantity. The finishing processes are different types of laminations, UV coating, foiling and embossing, die-cutting.

OUR STORY

On February 10th 1983, T. M. Jose founded Josco Printers with a treadle press and a commitment to always meet the expectations of those who trusted him with their work.

Built on the principles of hard work and dedication, Josco continues staying true to the core commitment of relationship-based business and customer satisfaction.

Grown conceptually from a local printing press into a modern digital and offset commercial printing enterprise serving clients across India and beyond.

Expertise and Experience Qualified Printing Technologists at Work

Jaison M. Jose, a Bachelor of Engineering in Printing Technology and alumnus of the College of Engineering and Technology, Pune, is heading the team at Josco. His experience of over two decades and knowledge in printing processes have helped the firm grow into a full-fledged multi-colour offset unit specialising in printed paper stationery and product packaging solutions.
